Subject: Fw: Dimock Residential Ground Water Sampling - Week #5 Toxicologist Reports and related DRAFT Residential Data Reports

Folks:

See below that we now have the "week 5" sampling results to review.

Eugene: May need you to go into the EU inbox to forward the files to Janine and Terry.

Thanks,

Tito

Subject: Fw: Dimock Residential Ground Water Sampling - Week #5 Toxicologist Reports and related DRAFT Residential Data Reports

Tito -

The tox reports and the residential data reports for the four locations sampled during week #5 were just sent to the HQs EU for review.

Sorry for the delay in sending these. Given that there are only four locations - we are still hoping that the review can be completed in time to release the data next week along with the week 4 data which was previously reviewed.

Thank you - Kelley

Subject: Dimock Residential Ground Water Sampling - Week #5 Toxicologist Reports and related DRAFT Residential Data Reports

Attached please find PDFs of the Toxicologist Reports and Draft Residential Data Reports for the 4 locations sampled during Week #5 (3/5/12 - 3/8/12).

While the data has been validated and is considered final, the reports are considered DRAFT until our review is completed. Please be sure to limit the distribution of these reports to an internal review as we have not yet shared the

data with residents or with PADEP.

The "tox" reports include additional information (e.g. lab qualifiers, MDLs, QLs, RLs) to assist in the tox review which is not included in the residential reports.

Please note that we are aware that in many cases the established "trigger levels" are lower than the actual detection limits. The R3 tox is taking this into account in her review. We will be prepared to answer questions regarding this issue as they come up during our meetings with residents.

A glossary/key is included at the end of the residential data reports.

Please feel free to contact me with any questions and/or if you need additional info.

Thank you - Kelley
